Wedding Planning Consultation

Wedding planning consultation provides you one of the most valuable services a full service wedding planner can provide you but without paying the full price of a full service wedding planner:

Premium wedding and event vendors at pricing and/or additional services at reduced or no extra charge at all. Your consultation will save you \$400 to over \$800 in direct money savings and/or in additional services provided by these vendors without you paying any additional fees to them!

The professional and well-established vendors who I work with provide GREAT deals through my Wedding Planning Consultation because they know I represent the opportunity for a LOT of ongoing work assignments on a regular basis. My preferred vendors do NOT pay me for my recommendation. Instead, they provide you the special and exclusive deals I have negotiated with them on your behalf. I give my Preferred Vendors free advertising on the directory in exchange for providing you exclusive special deals through the Wedding Planning Consultation. It's a win-win for everyone!

The great deals my preferred vendors provide are most often the same special offers and incentives they provide at a bridal show. **Now, you can get these deals throughout the entire year by using my *Wedding Planning Consultation*.** Some vendors now prefer to offer these special offers exclusively through me and save themselves the cost of bridal show participation and the expenses associated with setting up for that. This enables my preferred vendors to pass on even better deals! These exclusive offers are unlocked just by you having your Wedding Planning Consultation with me.

I have venues which will take \$200 to \$500 off their venue rental fees when you use my Wedding Planning Consultation OR save them wedding planning work by having me do it instead. But you must hire me before you enter into rental agreement with those venues.

I have supplemented the Wedding Planning Organizer with brochures, price lists and MORE from venues and vendors. I will provide you a wedding day timeline, professional advice and listing of all the Preferred Vendors and their exclusive offers. You will also receive over \$200 in discount savings with Bride's Certificates which are designed to be used **before** your big day.

The Wedding Planning Consultation is priced at only \$74.95.
